

Delivering Advanced Polymer-Based **Solutions** for 57 Years

Zeus is the world's leading polymer extrusion and catheter design manufacturer. Since 1966, we have partnered with medical, aerospace, energy, automotive, fiber optics, and other markets to provide solutions, enable innovation, and enhance lives.

Our history and reputation of collaborating with manufacturers and research and development groups is well-recognized. Today, companies know that when they come to us, **we deliver!**

EPIC - Our Core Values

Excellence

We offer exceptional solutions to our customers.

We exceed expectations because we don't just meet the standard - we set the standard.

We treat each day as a day to be better.

Creativity

We are not limited by the way things have always been done.

We enable innovation for our customers by investing in our people and processes.

We take calculated risks to grow our business.

Exceed expectations.
Put people first.
Do the right thing.
Innovate.

People

We prioritize people and treat others with compassion and respect.

We encourage our team members to develop and grow.

We build strong, lasting customer relationships.

Integrity

We do the right thing even when no one is looking.

We are committed to earning trust and we are transparent about what we can and cannot deliver.

We encourage honesty and truthfulness.
